

VFOPM3-Modular Patch Panels

VIAFIBRAOPTICA 1U modular patch panel system in its basic form is supplied with the panels unloaded without LGX adapter plates or MTP. The panel can also be pre-loaded with any 3 combinations of LGX adapter plates or MTP cassettes of your choice, or pre-loaded with pigtails to meet your project needs. An optional fiber management kit can also be included.

The tray is locked in place with two plastic latches, when fully extended the tray is designed to lower to 45°. This provides the perfect working platform for simple installation or easy maintenance and access even after the panel is installed in the rack.

Better cost effective with the ability to reduce your stock with only 1 VFOPM3 panel for all configurations of LGX adapter plates or MTP cassettes, and order accessories on demand based on your customer projects.
